WildEcol Seminar Series presents

Wildlife Photography

***Robin and Arlene Karpan, Writers, Photographers, and Publishers,
Parkland Publishing***

Robin and Arlene will give a talk and photo presentation on wildlife photography. It will focus on their experiences photographing wildlife both close to home in Saskatchewan, and in many other parts of the world. Some of the topics will include discussions on what makes a compelling wildlife image, composition, technical considerations, camera gear, and ways to prepare for a wildlife photography trip. Above all, there will be lots of images of critters!

Wednesday, December 6th, 2017, 3:30 pm
