

# Undergraduate Research Seminars

## *"Egg Morphology of Saskatchewan Shorebirds"*

by Madison Douglas  
Biol 480 Biology Research

## *"Why Do Frogs & Toads Vary in Colour?"*

By Lily Buckles-Whittle  
Biol 479 Literature Research in Biology

Lily and Madison completed undergraduate research projects this term in the Department of Biology. Each will present a short talk about their findings.

Everyone Welcome!

**Thursday, April 27, 11:00 am to 12:00 pm**  
**room 210 CSRB**
