

## DEPARTMENT OF CHEMISTRY SUMMER RESEARCH AWARDS

### Make the most of your summer with a job that really pays.

Qualified undergraduate students in chemistry or a related discipline are encouraged to gain **practical experience** in science by joining an active research program for the summer. The department offers competitive salaries.

You can apply for an **Alan C. Nixon or JWT Spinks Summer Research Award** by contacting a Chemistry Faculty Member to sponsor your application. Applications consist of a brief CV and an application form describing the research proposal, completed by the faculty member. The deadline for applications is **March 2, 2018**.

The Department of Chemistry offers a broad array of federally funded research programs in molecular sciences. Research for students interested in any subdiscipline of chemistry is available. Check out our web site <http://www.artsandscience.usask.ca/chemistry> for more information on these research fields:

- Analytical
- Biological
- Bioorganic
- Inorganic
- Materials
- Organic
- Physical
- Surface
- Theoretical
- Photovoltaics

#### Eligibility:

- Full-time B.Sc. or B.E. student
- Completed at least 9 cu's of Chemistry
- Not graduating in 2018

#### Terms:

- Approximate Total Salary: ~ \$6,500 to \$8,800 (depending on year in program)
- Work week: 35 hours
- Duration: Any 16 week period between May 1 and August 31, 2018

#### Apply to:

Department of Chemistry  
Thorvaldson 170
