ACADEMIC AWARDS AND DISTINCTIONS

- Marquis Who's Who in the World (2009-2017...)
- AcademicKeys, Who's Who in Social Sciences Higher Education (WSSHE):

- <http://socialsciences.academickeys.com/>
- Ludwig Mai Service Award, Association for Social Economics, 2016.
- Selected by the AACSB to the, AACSB New Deans Learning Community (NDLC).
- Elected, Board of Trustees, Association for Evolutionary Economics, 2013-2015.
- Elected Vice President, Association for Social Economics (ASE), 2007. President-Elect (2008) and President (2009).
- Past-President, Executive, Association for Social Economics (ASE), 2011
- SABE Executive Board, Elected for a 5-year term, 2010-2015.
- President, Society for the Advancement of Behavioral Economics (SABE), 2003-2005.
- Invited speaker on the Aging Society, Eastern Economic Forum, Krynica, Poland, September, 2008.
- Professor Alexander Brody Distinguished Service Lectureship, "Is There Free Will in Economics? The Ethical Economy and Free Markets," Yeshiva University, New York City, February 2006.
- Elected Visiting Fellow, St. Edmund's College, Cambridge University, 2007-08.
- Visiting Scholar, Department of Economics, Stirling University, Scotland, Fall 2007.
- Visiting Erskine Fellow, Department of Economics, University of Canterbury, Christchurch, New Zealand, February-June 2008.
- Visiting Scholar, Cornell University and Duke University, 2000-2001 academic year.
- Visiting Scholar, Stanford University, Stanford, California, 1995-96 academic year.
- Halbert Visiting Professor of Canadian Studies, Department of Economics, The Hebrew University of Jerusalem, Jerusalem, Israel, February 1993-July 1993.
- MCI University Press Awards (Literati Club) for Excellence 2001, for the 'Outstanding Paper' published in the *International Journal of Social Economics*, Morris Altman, "A Behavioral Theory of Economic Welfare and Economic Justice: a Smithian Alternative to Pareto Optimality."
- The Encyclopedia of Political Economy Award for Writing and Research Excellence (1997)
- Helen Potter Award in Social Economics presented by the Association for Social Economics for the best article published in 1992 in the *Review of Social Economy*, Morris Altman, "The Economics of Exogenous Increases in Wage Rates in a Behavioral/X-Efficiency Model of the Firm."
- Elected to membership in the Newcomen Society of the United States (for ongoing research in economic history, June 20, 1984).
- Newcomen Award presented by the Newcomen Society of North America at McGill University (May 1981) for Masters Thesis, "Economic Aspects of Agricultural Productivity and the Seigniorial System of Land Tenure in Quebec, 1780-1850."
- Short-Listed—Henry Marshall Tory Research Chair, University of Alberta, 2004.
- **ACADEMIC AND RELATED POSITIONS:**
- ***University***
- Professor and Dean and Head, Newcastle Business School, University of Newcastle, Newcastle, Australia, 2015-.
- Professor and Head of School, School of Economics and Finance, Victoria University of Wellington, Wellington, New Zealand, 2009-2014.
- Professor and Head, Department of Economics, University of Saskatchewan, Saskatoon, Saskatchewan, 1994-2009.
 - Associate Professor, Department of Economics, University of Saskatchewan, Saskatoon, Saskatchewan, 1988-1993.
 - Assistant Professor, Department of Economics, University of Ottawa, Ottawa,

Ontario, 1986-1988. Assistant Professor, Department of Economics, Concordia University, Montreal, 1984-1986.

- Visiting Assistant Professor & special lecturer, Department of Economics, University of Ottawa, Ottawa, Ontario, 1984-1986.

Other

- Member of the International Cooperative Alliance Research Committee.
- Founding and current Series Editor, *Perspectives on Behavioral Economics and the Economics of Behavior*, Elsevier, as of 2016.
- Co-Founding Editor, *Review of Behavioral Economics*, as of 2013:
<http://www.nowpublishers.com/journals/Review%20of%20Behavioral%20Economics/Preprint>
- Editor, *Journal of Socio-Economics* (Elsevier Science), July 1, 2001-2012.
- Associate Editor, *Journal of Economic Psychology* (Elsevier Science), 1998-2001.
- Editorial Board, *Journal of Economic Psychology* (Elsevier Science), 2001-.
- Advisory Board, Behavioral & Experimental Economics, Behavioral & Experimental Economics Abstracts-Accepted Paper Series, ERN-SSRN.
- Chair, Committee 12, Social Sciences and Humanities Research Council, 2004-2005.
- Co-Chair, Research Committee of Council, University of Saskatchewan, 1999-2000.
- Co-editor with Shlomo Maitel (MIT and The Technion, Haifa) of the SABE Newsletter (Society for the Advancement of Behavioral Economics), 1992-2001.
- Editorial Board Member of the Journal of Socio-Economics (Elsevier Science, 1998-).
- Executive Board Member of SABE (Society for the Advancement of Behavioral Economics).
- Executive Board Member of IAREP (International Association for Research in Economic Psychology).
- Board of Trustees, Association for Social Economics.
- Professor of Economics (July 1993), University of Saskatchewan, Saskatoon, Saskatchewan.
- Associate Professor of Economics, tenured (1991), University of Saskatchewan, Saskatoon, Saskatchewan, 1989-1993.
- Assistant Professor of Economics, untenured, University of Ottawa, Ottawa, Ontario, 1986-88.
- Visiting lecturer, University of Ottawa, winter 1985, Canadian Economic History.
- Assistant Professor of Economics, untenured, Concordia University, Montreal, Quebec, 1984-86.
- Part-time lecturer, Concordia University, Montreal, 1983-84.
- Researcher on the Canadian pulp and paper industry, Canadian Federation of Labour, Education Department, 1980.
- Economist responsible for a commissioned study on the structure, ownership and labour productivity in the Canadian communications industry, Canadian Federation of Printing Trade Unions, 1978-79.

RESEARCH GRANT INFORMATION

- HEPP Grant Australia, Chief Investigator, \$200,000, 2016-2017.
- VUW, University Research Grant, \$15,000, 2009-2010
- □ VUW, Summer Scholarship Grant, \$5,000, 2010; 1*\$5,000, 2011; 2*\$5,000, 2012; 2*\$5,000, 2013
- VUW, Small Research Grants, 2*\$2,000, 2010-11
- VUW, FCA Research Grant, \$5,000, 2011
- VUW, Applied for Marsden & FRST grants, 2009-2011.
- □ President’s SSHRC, \$5,000, 2009-2010.
- Social Economy Grant, \$7,000, 2008-2010.
- “Economic Implications of Climate Change,” \$280,000, CCAF, 2003-2006, Co-investigator.
- “Culture Matters,” Advisor, \$560,000 US (Smith Richardson Foundation, \$250,000 US; John Templeton Foundation, \$203,000 US), 2002-05. Only Canadian of an International Team of researchers.
- “Co-operative Membership and Globalization: Creating Social Cohesion through Market Relations,” Co- investigator, \$589,000, Social Sciences and Humanities Research Council, 2002-2005. One of 14 lead investigators.
- “Behavioral Growth and Income Inequality,” IRPP-CSLS Project on Economic Growth and Inequality, 2000-01.
- “Transition in Poland,” \$4,000, Canadian International Development Agency, 2000.
- “Divorce as a Market Failure,” \$3,500, University of Saskatchewan President’s Social Sciences and Humanities Research Council of Canada, 1999-2000 academic year.
- “Labour Markets in Transition: Public Policy Perspectives through different Theoretical Prisms,” \$27,852, Law Commission of Canada and Social Sciences and Humanities Research Council of Canada, 1999-2000 academic year.
- “Hours of Work and Real Income in Canada, 1870-1930: Evidence and Determinants,” \$27,428, Social Sciences and Humanities Research Council of Canada, 1992-1995.
- McGraw Hill Ryerson Publisher's research grant for An Economist's History of Canada book contract,
 - \$2,000.

- Messer Canadian History Fund grant for microfilm on 1911 Census, \$100.
- "A History of Quebec and Ontario Economic Development, 1870-1910," (Book Project: McGill-Queen's University Press), \$4,000, President's Social Sciences and Humanities Research Council Award, 1991-92.
- "Intensive Manufacturing Growth in Canada and the Canadian Wheat Boom, 1900-1910: New Estimates from the Census Material," Twenty-Second General Conference, International Association for Income and Wealth, Flims, Switzerland, August, 1992, \$1,000, Social Sciences and Humanities International Conference Travel Grant, 1991-92.
- "Hours of Work in Canada, 1870-1930", \$1,700, President's Social Sciences and Humanities Research Council Award, 1990-91.
- University of Saskatchewan, Microcomputer Peripheral Competition, \$1,240, 1990.
- "Comparative Economic Efficiency and Quebec French and English Agriculture and Systems of Land Tenure and Culture," \$1,400, President's Social Sciences and Humanities Research Council Award, 1989- 90.
- "Plant Size in Canada and Canadian Economic Growth, 1870-1910," Second World Congress of the Cliometrics Society, \$1,000, Social Sciences and Humanities International Conference Travel Grant, 1989.
- "X-Efficiency Theory: Implications for High Wages on Employment and Savings," \$300, College of Arts and Science Research Grant, 1988-89.
- American Economic History, General Research Grant, \$500 U.S., United States Information Agency, 1988-89.
- "Interfirm, Interregional, and International Differences in Labor Productivity: Variations in the Levels of X-Inefficiency' as a Function of Differential Labor Costs," \$879 U.S., Earhart Foundation Travel Grant, World Conference on Micro-Micro Economics, Rockefeller Centre, Bellagio, Italy, May 1988.
- "Export Growth and Labour Productivity Growth in Canadian Manufacturing," \$8,178, Social Sciences and Humanities Research Council of Canada, 1988-1989.

LIST OF PUBLICATIONS

TEACHING AND RESEARCH

Since 1984 I've taught undergraduate and graduate courses and supervised MA and PhD students. I've taught in traditional core areas of economics with more emphasis on microeconomic theory. I've also taught and developed courses in labor economics, pay inequality, development economics, behavioral economics (with some emphasis on experimental economics), economic history and the history of economic thought. Most recently, my teaching and supervisory focus has been on behavioral/experimental economics. At the University of Saskatchewan, my home base since 1988, I've supervised over 10 MA theses and served on numerous MA thesis and project committees. I was also supervising or co-supervising three Ph.D. theses at Victoria University of Wellington, where I taught a course on Behavioural Economics and a professional masters course in economic theory. At the University of Newcastle, I'm currently supervising one Ph.d. thesis and give occasional lectures.

OTHER ACADEMIC ACTIVITIES

- Referee, National Selection Panel, Social Science and Humanities Research Council, Social Science Grant Applications Postdoctoral Fellowships (2002-2005).
- External Referee (Central List of Experts) European Science Federation (ESF) Standing Committee for the Social Sciences (SCSS) (2003-).
- External Referee, Royal Society of New Zealand, Marsden Fund.
- External Expert, Higher Education Commission Pakistan.
- External, Promotion and Tenure Cases, Canada, France, Pakistan, USA, UK.
- Referee, Cambridge University Press.
- Referee, Kluwer Academic.
- Senior Consulting Referee, McGraw Hill.
- Referee, Canadian Journal of Economics.
- Referee, Social Sciences and Humanities Research Council.
- Referee, The Economic Journal (The Royal Economics Society).
- Referee, Journal of Economic History.
- Referee, The Eastern Economic Journal
- Referee, The Review of Income and Wealth
- Referee, Review of Social Economy
- Referee, Journal of Post-Keynesian Economics
- Referee, Canadian Journal of Agricultural Economics
- Referee, American Journal of Canadian Studies
- Referee, International Journal of Industrial Organization
- Referee, Journal of Socio-Economics
- Referee, Journal of Land Economics
- Referee, Journal of Economic Psychology

OTHER ACADEMIC ACTIVITIES (ADDITIONAL DETAILS)

- Since 2012 external referee for senior promotion cases in the United States, Canada, and Israel.
- International Peer Review Panel Evaluating Research Output for Economics and Business School Programmes Programs in Romania (Romanian Research Assessment Exercise (RRAE)), Off-site deliberations, pre-July 1, 2011. Site Visit, September 15-17, 2011. Sponsored by the European Community.
- External Expert, Review of the University of Wageningen Economic Program, The

Netherlands, June 2009 (on-site review).

- External Expert, four promotion and tenure cases, Pakistan, 2005.
- External referee, Distinguished Professor Promotion Case, Bruce Thompson, Texas A&M University.
- External referee, Promotion Case, Mark White, Tenure and Associate Professor, City University of New York 2005.
- External referee, Promotion and tenure case, Nathan Berg, University of Texas, Dallas.
- Mid-Term Review Committee, INE Initiative, Social Science and Humanities research Council, 2004.
- Chair, Committee 12, Social Science and Humanities research Council, 2005.
- Committee member, Committee 12, Social Science and Humanities research Council, 2002-2005.
- External reviewer, Major research institutes proposals (multi-million Euros), Ludwig Boltzmann Society, Austria, Nominated by the Austrian Research Fund (FWF), 2004.
- External reviewer, MA in Business Economics Program, Brock University, Council of Ontario Universities Appointee, 2004.
- External review panel, European Science Foundation (ESF), Exploratory Workshops (2003 and 2004 and 2006-).
- External review panel. Marsden Research Fund, Royal Society of New Zealand (2004-).
- External referee, Michael Lynn, Promotion Case to Full Professor, School of Hospitality, Cornell University, 2007.
- External referee, Bijou Yang Lester, Promotion Case to Full Professor, Economics, Drexel University, USA, 2003 and 2004.
- External referee, Peter, Lunt, Promotion Case to Reader, Department of Psychology, University of London, 2003.
- External Examiner, Ph.D. Matthew Clarke, Social Welfare and GDP Can We Still Use GDP for Welfare Measurement? Victoria University of Technology, Australia, 2003.
- External Referee, Mark White, Tenure and Promotion Case to Associate Professor, City University of New York (College of Staten Island), 2003-05.
- External Referee, Promotion Case, Department of Economics, Lehigh University, U.S.A.
- External Referee, Promotion Case, Department of Economics, Brandon University.
- External Referee, Mark Pingle, Promotion Case to Full Professor, Department of Economics, University of Nevada, Reno.
- External referee, Catherine S. Elliott, Promotion Case to Full Professor, Department of Economics, New College of University of South Florida, 1997.
- External reviewer, 4 year special degree program accreditation case, Augustana University College, Camrose, Alberta, 1997.

SUMMARY UNIVERSITY COMMITTEES:

As Dean of the **Newcastle Business School** and as Head of Economics and Finance at **Victoria University of Wellington**, I served and serve on a large number of committees.

At the University of Saskatchewan I was Co-Chair, Research Committee of Council, 1999-2000 Co-Organizer, University Research Symposium, Research Committee of Council, 1999-2000 Committee member, Vice-President Research's Committee on Desrosiers Report. 1999-2000 Associate Chair, Research Committee of Council, 1998-99.

Committee member, Sub-Committee on Research Symposium, Research Committee of Council. 1998-99

Committee member, Vice-President Research's Committee on the Desrosiers Report. 1998-99
Faculty Association Representative (FAR), Department of Economics, 1990-93

Chair, Ad Hoc Benefits Committee, Faculty Association,
1991-93 Chair, Fringe Benefits Committee, Faculty
Association, 1991-93 Member, Faculty Association Caucus,
1991-93
Chair, Budget Committee, Faculty Association, 1991-92

**NON-UNIVERSITY RELATED ACTIVITIES (SOME
EXAMPLES)**

- Fundraising Chair and Board Member, Saskatoon Lasers Speed Swim Club.
- Fundraising Co-Chair and Board member, Saskatoon Racing Canoe Club
- Past President and VP of Congregation Shir Chadash. Member of the Board of Trustees (2001- 2002)
- Past President of Congregation Shir Chadash. Member of the Board of Trustees (1999-2000)
- Co-President of Congregation Shir Chadash.
- Past-Member, Board of Trustees, Congregation Agudas Israel, Saskatoon.
- Academic advisory committee (2 meetings in Regina) for PACE—the government-private sector Competitive Review, 1996-97
- As a Member of the Hnatyshyn Tribute Committee, I helped organize the Hnatyshyn Tribute Dinner, which was the basis for generating a scholarship endowment for U of S students to attend the Hebrew University of Jerusalem for one year and to establish links with the bio-tech community at the U of S and in Saskatchewan with the world leaders in the area based at the Hebrew University. Along with Louise Lamontagne, I raising about \$250,000.

ADMINISTRATIVE ACHIEVEMENTS

Morris Altman

Dean & Head, Newcastle Business School
Professor of Behavioural & Institutional Economics

Email: morris.altman@newcastle.edu.au The University
of Newcastle, Australia

Selected Administrative Achievements at the University of Newcastle

January 2015 onwards

(see below for Victoria University of Wellington & University of Saskatchewan initiatives)

Some key initiatives & responsibilities

- Redesign the workload model to make it the School economically viable.
- Working with the Faculty team to make the transition to NewSpace a relatively smooth and successful experience.
- Central Coast Campus--reorganization & development, renaming, changing structure of leadership.
- Sydney Campus—move to NewSpace and reorganization & development of our Sydney presence.
- Led the initiative in the Faculty to outfit all of our campuses with conference audio-visual capabilities so as to be able to deliver courses where numbers are economically unviable to the Central Coast and Sydney communities.
- Leading (with the PVC and other stakeholders) the integration and sustainability of the Hunter Research Foundation into the Newcastle Business School (including a big data lab).
- Reconfigured the response to and implemented the findings of a major external review of the Newcastle Business School.
- Blended learning initiative (a blended approach to blended learning), implementation and working through issues and problems.
- Redeveloping course internship programming—launching our first initiative in 2016.
- Spearheading a MOOC strategy, with our test MOOCs to be launched by late 2016-early 2017.
- Reconfiguring the MBA to increase flexibility and competitiveness.
- Developing stackable post-graduate degrees to increase flexibility and competitiveness

Stakeholder engagement

- Redeveloping stakeholder engagement, significant intensification towards providing community support for programming and research and to better meet the needs of our communities.
- Executive short courses (intensive).

Research related

- Initiated the Global Research Chair in Supply Chain Management.
- MOU signed with GS1, which I introduced to UON (supply chain).
- I view supply chain from a business school perspective (which is of an interdisciplinary nature), to be of critical importance to our Hunter and Central Coast stakeholders. This, after consulting with stakeholders and understanding the nature of our economies.

- Research: maintaining and growing research output through balancing research and teaching and the introduction research conjoints.
- Introduced a research conjoint programme using minimal resources to build up the long run strengths of research in the Business School.
- Significant redesign of the workload model to better incentivize research, grants, and service and the realization of a balanced budget.
- Initiated Small Research Grants Strategy to facilitate and incentivize research grant application and success.
- Initiated Data Sets acquisition strategy--working with a wide range of people (acquiring key data sets with highly limited resources).
- Leading the initiative to the establishment of Lab in Experimental Economics & Lab in Financial Markets strategy (ongoing) (labs in behavioural decision-making).

More research related

- Founder of WISED, Workshop of Institutions and Socio-Economic Development (network of research in the business and law schools).
- Leading the establishment of a financial literacy clinic at the Newcastle Business School (ongoing).

Internationalization

- Internationalization (with Richard Dunford & Tony Drew)
- Exploiting my connections to expand relationships in Western and Eastern Europe, Africa, Malaysia, USA & Canada.
- Lead in diversifying internationalization.

Accreditation

- AACSB accreditation process, successful. Instigated a forward looking approach which is key to AACSB success.
- Initiated the Marketing accreditation with the support of the Marketing discipline leadership—Australian Marketing Institute (AMI) Accreditation. This has been a great success.

Programming

- Spearheading the redevelopment and redesign of the new DBA (with Suzanne Ryan)—major market opportunities.
- Spearheaded the faculty efforts to introduce a dual PhD—major market opportunities.
- Initiated the major in sports management, with Kevin Lyons (successful).
- Initiated the major in actuarial science and risk management (commencing in 2017).
- Led the development and design of the major in innovation & entrepreneurship (already launched).
- Led the development of a grad cert and Masters in innovation & entrepreneurship (commencing in 2018).
- Developing an interdisciplinary major in Health Economics.
- Leading the development of course delivery and programming with regards Aboriginal society and business.
- Initiated the development of a GradCert and Prof Masters in Professional Economics—the only in Australia (2018).
- Initiated the development of a GradCert and Prof Masters in Co-operative Management and Organization—the only in Australia (the only in the Asian-Pacific).

- Program improvement initiatives & risk management
- Protocols for Assessing on Research Papers by students
- Protocols for Assessing on-line major exams.
- Developed a PRD process for sessionals.
- Led the initiative on the fast track Masters in response to falling PG number in the Sydney Campus, changing the manner in which Masters are being offered and advertised.
- Reviewing Post-Graduate programming to create an Executive MBA and specialized MBAs in business area specializations.
- Spearheading the short course intensive module graduate offerings (with assessment and non-assessment modes)
- Spearheading the redesign of professional post graduate programming, including introducing Bespoke micro degrees, splitting courses (stacked courses), reconfiguring the core to introduce more flexibility.
- Introducing a course based Masters with a dissertation component as an alternative to the honours degree and as a pathway to the PHD both in Australia and abroad.
- Introducing online courses at the undergraduate level to parallel face-to-face offerings to increase flexibility for students and meet market demand.

Other

- Spearheaded redesign of School Web
- Discussion paper series.
- School newsletter.
- Peer reviewed student journal.

Morris Altman, Key Administrative Achievements at Victoria University of Wellington & the University of Saskatchewan

Victoria University of Wellington

I was headhunted to be Head of the School of Economics and Finance, with close to 40 staff and with responsibility for budgetary matters.

Over this period I've been able to help transform a highly troubled and problematic unit; problematic in terms of teaching, research, and engaging with the wider university community and faculty.

This was achieved by having a vision of what needed to be done (after consulting with those in the know), but also by always being transparent, engaging in a collegial process, and then moving forward.

I've achieved a number of milestones at Victoria. Here are some examples.

- *I helped re-vitalize the School's research, taking it from the bottom to the top in the faculty and from the bottom to the top of the economics discipline in New Zealand, based on the government's performance based research fund evaluation program (PBRF).*
- This was done largely by mentoring both weak and strong researchers and by hiring new staff on the basis of their research and research potential, their willingness to teach, and their collegiality.
- I introduced a Professional Development Career Plan for all staff to mentor and provide direction to them. I introduced a weekly morning tea that was important in

fostering social cohesion and networking in the school.

- I brought the School of Economics & Finance in line with the AACSB and EQUIS processes. The School was blocking both of these initiatives. I was active in both of these initiatives.
- I spearheaded the introduction a new (North American type) Masters program, which is looked upon as a model for the rest of the Faculty and University.
- I developed a Masters in Professional Economics, the first in New Zealand. I spearheaded the developing and introduction of undergraduate and graduate programmes in actuarial science.
- I led the development of joint degrees at all levels with international universities and SEF.
- I re-organized our marking and tutor system so that we now have a supply quality tutors and markers, an improved quality of undergraduate education and provide more job opportunities and critical experience for our post-grad students.
- In addition, I organized the funding for annual research workshops for the 5 research groups in the School. These are national in scope, but also include Aussie and American participation.
- I've fundraised as well, directly securing a \$300,000 endowment.
- I also spearheaded the development of an endowed chair in the economics of disaster, which brought in considerable funds (based on one staff I brought into the school, facing some opposition).
- Finally, I'm spearheading the establishment of a joint lab in behavioral economics and economic decision-making and a finance trading lab and teaching space.
- I took the lead in founding the New Zealand Association for the Study of Cooperative and Mutuals, and co-organizing its first conference.
- I organized successful international meetings for these groups. Most recently I've attracted the Western Economics Association International Meetings to Wellington, which will attract 300-400 economists plus a number of Nobels (2 of our keynotes) to the city.

University of Saskatchewan

I was elected for 5 terms as Department Head of the Economics Department at the University of Saskatchewan (1994 to 2009), where I served as a Full Professor since 1993 (based largely on referee reports of leading American scholars).

I was responsible for budgetary matters.

The Department had fallen from its position as one of Canada's lead research intensive economics departments in Canada, a position it developed and held from the 1950s into the 1970s, under the leadership of Professor Mabel Timlin, one the godfathers Keynesian economics in North America.

I was elected head, as one who was respected by all sides of the debate. I was already

known for making tough decisions in a collegial and fair manner and having a team approach to organization building. I was also known as a strong researcher with strong international connections who would go out of his way to mentor colleagues and students.

I introduced differential teaching, as well as the recognition of research grants (applications and success) and PG supervision in workload determination. I also introduced a transparent process to determine merit pay (a large percentage of pay for research-intensive academics) and overload teaching, with the latter related to research funding requirements.

I introduced a web discussion paper series linked to the international social science-business school-law school repository, RePec.

I also introduced a peer-reviewed student journal.

Moreover, I developed an undergraduate major in Business Economics, which has since become the most popular major in the Economics and one of the most popular in the Faculty. It's been critical to attract increasing numbers of international students. Getting this programme through the administrative process took 4 years, with much politicking and networking.

The end result was that an external review awarded the Economics Department the highest score for teaching and research (equivalent to an ERA 5), at the undergraduate level. At the graduate level, because we did not have a PhD programme, independent from Agricultural Economics, we were awarded a score of 4, with the recommendation that the university support the development of a PhD programme.

Apart from these achievements I was working with an affiliated Catholic university in Saskatoon (Saint Thomas More (STM)) that had been completely alienated by the economics department at the University of Saskatchewan. We established a proper economics department at STM, bringing in additional staff, thereby enhancing the teaching and research capabilities in economics at the University of Saskatchewan.

I was also at the forefront in lobbying and planning for the establishment of a behavioural decision-making lab at the university, the funding for which was secured after I left. The lab configuration at the UoS is now one of the best in Canada.

In addition, I pioneered a programme for visiting scholars from abroad (but with a heavy focus on China). This attracted many scholars who developed longstanding relationships with the Department and the University.

I also further developed research relationships with Ukrainian universities.
