

# Math 125.3 – MATH FOR THE LIFE SCIENCES

To receive Department Approval for Math 125.3 you must see the below sections and contact the appropriate person for your major. **The Department of Mathematics and Statistics cannot issue Department Approval for Math 125.3.**

## Pre Pharmacy Students:

There are two options for students who plan to be in Pharmacy but have yet to be accepted. **Department Approval for Math 125 will not be issued to undeclared Pre Pharmacy Students:**

1. Since you have yet to be admitted into Pharmacy and there is no guarantee that you will be accepted it may be wise to select a back up major. You can speak with an undergraduate advisor about your back up plans. If you select a major that is permitted to take Math 125 you will be able to follow the directions for the applicable program.
2. Math 125 is a minimum pre-req for Pharmacy, they will also accept Math 110 instead of Math 125. Since Math 110 is accepted in a number of different programs it will provide you more options in other degrees if you either do not get into Pharmacy or change your academic interests.

## Biology, Psychology, Environment & Society (Geography), and Toxicology Students:

Students who are interested or already registered in these programs contact:

**Department of Biology (306-966-4399 / [biology.dept@usask.ca](mailto:biology.dept@usask.ca))**

## Agriculture & Bioresources Students:

Students who are interested or already registered in this program contact:

**Amie Shirkie (306-966-4062 / [agbio.studentservices@usask.ca](mailto:agbio.studentservices@usask.ca))**

## Biomedical Science Program Students:

(Including Anatomy & Cell Biology, Biochemistry, Microbiology & Immunology, Physiology and Pharmacology, Dentistry, Medicine, Vet. Medicine, Biomolecular Structure Studies, or other Life Sciences Programs)

Please contact:

**Donna Dodge (306-966-6530 / [donna.dodge@usask.ca](mailto:donna.dodge@usask.ca))**
